IMMUNIZATIONS INCOMING SENIORS 2017-2018 SY

The Ohio Department of Health currently requires all 12th grade students to have received the **Tdap** (Tetanus/diphtheria/pertussis) and **meningococcal** (MCV4) vaccine *prior* to the start of the 2017-2018 school year. If your student has received these vaccines, they do not need them again, but *you must provide proof to the school*. You may mail, fax (513-724-6577) or drop off a copy of the shot records to the high school office.

If you attend school online or through CCP I still need a copy of your shot records. If you attend Grant you may give a copy to your nurse at Grant.

If your student has not received the Tdap vaccine or the meningococcal vaccine then this can be done by their healthcare provider. It can also be done at the Clermont County Health Department in Batavia by calling (513) 732-7499. A \$10.00 fee is requested for each child (18 years of age or younger) for each visit, but no one is turned away due to an inability to pay.

IF we do NOT have verification of your student receiving their Tdap and meningococcal vaccination your student will be **excluded from school as of September 11, 2017**.

Please keep in mind the meningococcal vaccine is a two part series IF your child received the first dose before they were 16 they will need the second dose. If they received their first dose on or after their 16 birthday they only need one dose.

Please call the school at 513-724-2241 or the Clermont County Health Department at 513-732-7499 with any questions or concerns.

Sincerely,

Stephanie Sutton, RN, BSN, WLSD
